EXPERIENCE

Self-shooting Producer/Director Mar 2023 - Oct 2023

University of the West of England, *Bristol, UK*

- Produced a short film featuring a heartwarming conservation story about the endangered yet overlooked Chinese immaculate treefrogs, in collaboration with the Native Wildlife Conservation Area of Hongshan Zoo, one of China's leading zoos, with the aim of inspiring the conservation of native species in China. (Yet to be made public. Please contact me for a password-protected link.)

Researcher (part-time) Mar 2023 – Sept 2023

Colorful Nature Films, *Beijing, China*

- Conducted in-depth research on animal behavior and ecology and collaborated closely with the editorial team to identify optimal filming locations for an upcoming immersive VR/AR nature film in Denmark (Under NDA).
- Efficiently navigated permit application processes, ensuring the smooth planning of filming activities and strict adherence to local regulations.
- Explored diverse stock footage options and successfully negotiated favorable terms with key vendors for purchase.

Social Media Influencer Oct 2021 – Present

Science communication influencer on Weibo and Sohu

- Produce captivating popular science articles, wildlife photos, and videos for top news agencies, magazines, and museums in China, with a social media following of 170k+ to drive engagement and expand outreach.
- Ranked among the top 20 UGC creators on Sohu.com in 2022, hosting weekly to monthly live streams on topics related to biodiversity conservation and climate change.

Content Writer & Editor Apr 2021 – May 2021

Local Climate (Jubuqihou) Media, *Beijing, China*

- Originated content ideas and produced visually compelling and informative graphics and videos to engage young audiences in China on various environmental and biological topics including organic farming, arthropod conservation, etc.

Research Intern May 2019 – Aug 2019

Atsas Organic Products, *Nicosia, Cyprus*

- Implemented independent research on sustainable olive cultivation's impacts on biodiversity and human health and fostered vital partnerships with academic and government institutions to promote sustainable practices.

Research Assistant Sep 2016 – Jun 2018

Zhejiang University, *Hangzhou, China*

- Carried out extensive research on traditional agricultural systems in China and presented key findings at the 108th Annual Meeting of the Ecological Society of America.
